BE SUSTAINABLE WITH BEAUTY

Discover the 2026 Sustainable Companies:
Booth 11-A26
AsiaWorld-Expo
(10-12 November)

ASIA COSMOPACK
BEAUTY SUPPLY CHAIN SOLUTIONS
亞 太 區 美 容 供 應 鏈 展

Introductory Note

At Cosmopack Asia 2026, sustainability takes center stage with a remarkable lineup of exhibitors offering innovative, eco-friendly solutions.

The companies featured in this e-book were carefully selected by our main partner SGS, in collaboration with EcoVadis, and from spontaneous applications submitted by exhibitors at Cosmopack Asia 2026.

This initiative aims to showcase innovative and sustainable solutions that are making significant strides toward sustainability. The evaluation process focused on the following criteria:

- Quality and environmental certifications
- ESG (Environmental, Social, and Governance) commitments
- The sustainability features of the products presented

Through this selection, we highlight exhibitors who are advancing transparent, responsible, and future-ready beauty value chains.

Sustainability has become essential in the cosmetics and hygiene sector.
Companies must assess the environmental impact of products throughout their lifecycle — from ingredient sourcing and manufacturing to packaging, use, and disposal.

Adopting sustainable practices not only benefits the planet but also strengthens competitiveness among eco-conscious consumers.

Key areas to consider:

- **Sustainable ingredients**: use renewable, low-impact, and safe materials.
- **Eco-friendly packaging**: prefer recyclable, compostable, or biodegradable solutions.
- **Water conservation**: optimize water use in production and formulation.
- **Waste management**: design refillable and low-waste products.

As sustainability gains commercial value, greenwashing becomes a risk.
Transparency, clear labeling, and independent verification are essential to ensure that environmental claims are credible and scientifically proven.

SGS Panel

As the world's leading testing, inspection and certification company, **SGS** is a trusted partner in advancing sustainability across industries.

Through our IMPACT NOW for sustainability initiative, we help organizations navigate the complexities of environmental, social, and governance (ESG) challenges by offering pragmatic, science-based solutions across four strategic pillars: **Climate, Circularity, Nature,** and **ESG Assurance**.

In the cosmetics and hygiene sector, SGS supports brands in building transparent, sustainable value chains—from sourcing and production to packaging and disposal—ensuring that environmental claims are credible and verifiable. This approach directly contributes to our **Strategy 2027** ambition to drive sustainable growth and create measurable impact for our clients and the planet.

www.nuonmedical.com

Product name:

1. Secondary Applicator - Scalp Therapy Applicator
2. Secondary Applicator - Foldable Skincare Activator

Product description:

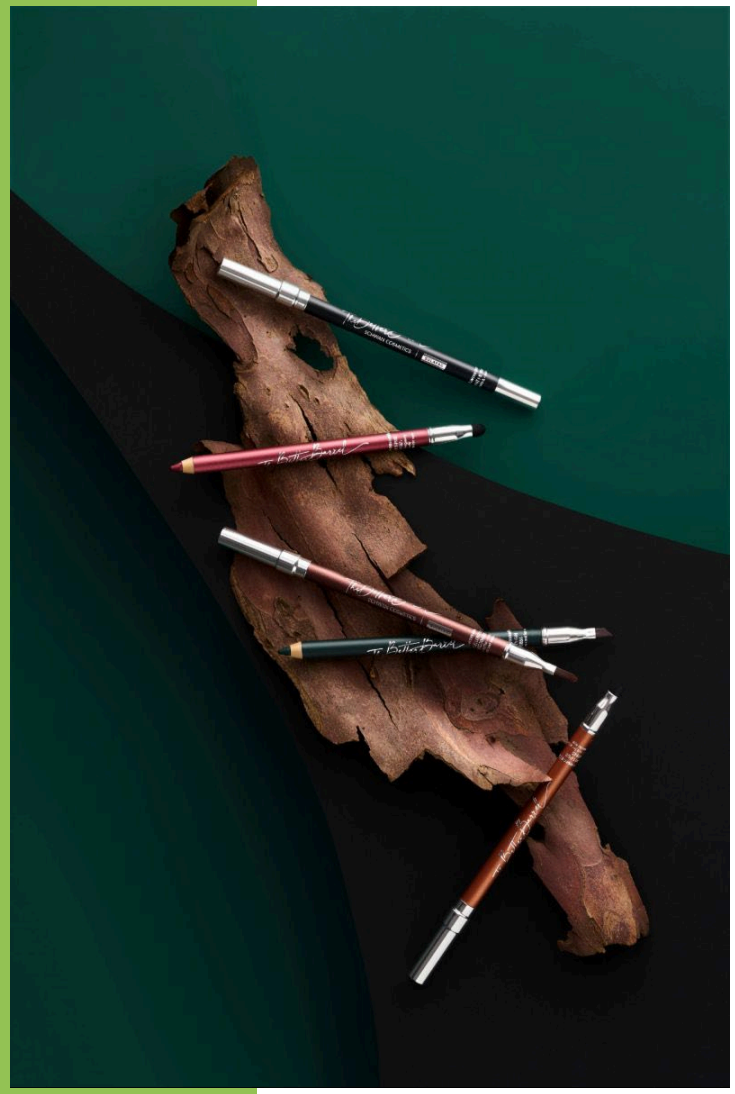

1. This premium at-home phototherapy electric microneedle care device innovatively combines two core technologies: red-light phototherapy and electric microneedle delivery. Adopting a futuristic geometric design, it serves as a professional skin-care instrument to deliver multiple benefits including skin repair, nutrient infusion and phototherapy-base scalp nourishment.
2. The Phototherapy Hair Growth Care Device: combines 12 built-in red-light LED lamps, vibration massage and automatic liquid dispensing through five precision outlets. It features a removable liquid storage tank, a soft silicone comb, indicator lights for operating status and battery level, a low-battery reminder and USB charging.

Sustainability commitment:

- Certified by ISO 14001
- Certified by ISO 45001
- Certified by ISO 50001
- Applied SMETA
- Have sustainability awareness and few adoption (Continuing to lead in eco-friendly product development with biodegradable materials and energy-efficient manufacturing processes)

SCHWAN COSMETICS INTERNATIONAL GMBH

Country: Deutschland
Booth: 3-D10 (Hall 3 - ASIAWORLD-EXPO)
https://www.schwancosmetics.com/de

Product name:

ProBarrel

Product description:

The cosmetic pencil barrel is a key component of the product experience, requiring durability, comfort and reliable performance. ProBarrel replaces conventional styrene-based materials with styrene-free SULAPAC® material, combining wood fibres from industrial side streams with biodegradable and recycled biopolymers. Containing up to 72% biobased and recycled content, it offers a durable, low-carbon alternative to conventional plastics. Made with wood from certified sustainable forests, the material supports industrial composting and is designed to biodegrade without leaving permanent microplastics.

Sustainability commitment:

ProBarrel combines sustainability with design flexibility, offering standard, mini and twin formats, customizable colours, matte or glossy finishes, shade matching, silkscreen printing and hot stamping. Its foamed structure ensures the same ease of use as conventional AES and PVC barrels, without compromising the consumer experience. With its styrene-free composition, biobased and recycled content, lightweight design and customization options, ProBarrel makes more responsible cosmetic packaging practical and accessible.

ecovadis

GUANGDONG TEGNYE TECHNOLOGY CO., LTD

Country: China
Booth: 7-Q20 (Hall 7 - ASIAWORLD-EXPO)
https://www.tengyekj.com/

Product name:

1 - All-plastic foamer pump
2 - All plastic lotion pump

Product description:

The all-plastic pump head combines sustainability, durability and cost-efficiency in one solution. Fully recyclable, it reduces its carbon footprint by 55% and offers a service life of over 2,000 uses. Its rust-free design ensures long-lasting performance, while compliance with 2030 standards supports future regulatory requirements. By combining recyclability, reliability and lower long-term costs, it provides a more sustainable and efficient alternative for cosmetic packaging.

Sustainability commitment:

The All-Plastic Pump features a 100% mono-material design, making it fully recyclable. By eliminating the metal spring, it also prevents rust-related issues. The technology delivers performance comparable to traditional pumps, with a longer lifespan. It complies with EU 2030 packaging regulations and reduces its carbon footprint by over 55%.

ecovadis

LECHUO INTERNATIONAL LIMITED

Country: USA
Booth: 3-B18 (Hall 3 - ASIAWORLD-EXPO)
https://www.ys-packaging.com/

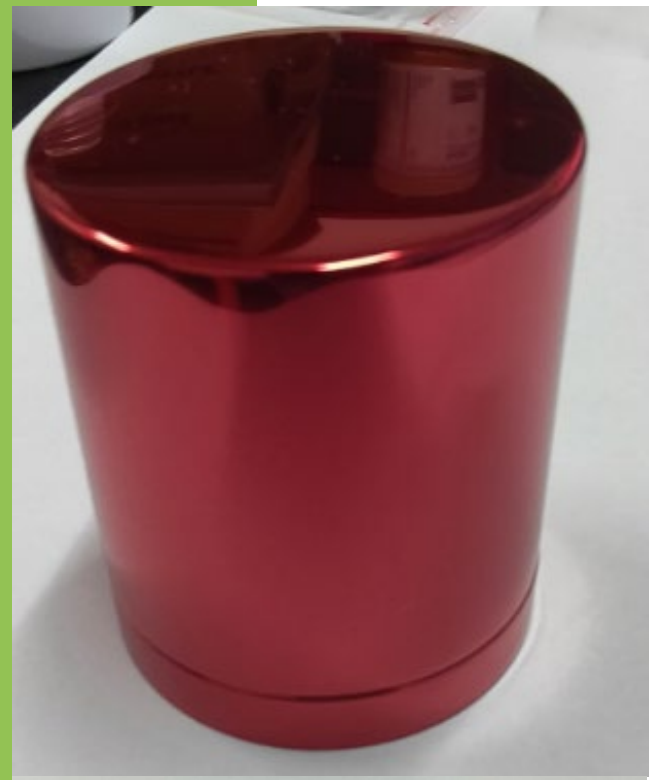

Product name:

Refillable Aluminium Perfume Set

Product description: A fragrance system designed for a circular future. This luxury set pairs seven full-size 30 ml refillable atomisers with seven 10 ml refill vials, all crafted in anodised aluminium and presented on a matching round aluminium display tray. Rather than discarding the bottle when the fragrance runs out, the consumer simply removes the empty 10 ml vial and inserts a fresh refill — the outer aluminium case is kept for life. Built entirely from aluminium — one of the world's most recyclable materials — this set dramatically reduces single-use packaging waste while delivering a premium, weighty feel in the hand. It is the ideal choice for fragrance houses and beauty brands committed to sustainability without compromising on luxury.

Sustainability commitment:

Refillability is at the very heart of this design. The concept is simple but powerful:
REFILL — the 10 ml inner vial can be replaced with a fresh fragrance refill in seconds.
REUSE — the 30 ml outer aluminium case is a permanent keepsake, not a disposable item.
REDUCE — one durable aluminium shell replaces dozens of single-use bottles over its lifetime.Aluminium is infinitely recyclable and retains its quality through every recycling loop, making this set a genuinely circular packaging solution. For brands, it means a stronger sustainability story; for consumers, it means less waste and a lower cost per wear.

ZHEJIANG SANYOU PACKAGING CO LTD

三 友 包 装
SANYOU PACKAGING

Country: China
Booth: 5-E12 (Hall 5 - ASIAWORLD-EXPO)
https://www.zj-sanyou.com/

Product name:

1. Aluminum caps and collar
2. Aluminum square caps

Product description:

Zhejiang Sanyou Packaging specialises in custom aluminium and aluminium-plastic closures for fragrance and skincare packaging. The aluminium caps and collars offer a premium, lightweight, and highly recyclable solution that supports circular design while delivering precise fit and elegant finishing options (anodising, electroplating). Certified to ISO 9001, ISO 14001 and ISO 45001, and regularly assessed via EcoVadis and SMETA, the company combines quality manufacturing with environmental management systems.

Sustainability commitment:

The company has passed the ISO9001 quality management system, ISO14001 environmental management system, and ISO45001 occupational health and safety system certification, which guarantees the products under careful monitor in the whole process from design, development, to inspection and assembly.

GUANGZHOU GAOPIN PLASTIC PRODUCTS CO.,LTD

GAOPIN

Country: China
Booth: 11-D24 (Hall 11 - ASIAWORLD-EXPO)
https://www.cosmeticsplasticbottles.com/

Product name:

1. Shampoo Lotion Bottle
2. Skincare Cosmetic Bottle

Product description:

Guangzhou Gaopin Plastic Products Co., Ltd. specialises in plastic packaging solutions for personal care and cosmetics, including shampoo lotion bottles and skincare cosmetic bottles. Made primarily from recyclable materials such as HDPE and PET, these bottles offer durable, lightweight designs with customisable capacities, colours, finishes (matte or glossy), and dispensing options (pumps or disc caps).

Sustainability commitment:

Guangzhou Gaopin Plastic Products Co., Ltd. holds ISO 9001 certification and has passed environmental impact assessments. The company is developing biodegradable PLA and PCR packaging solutions, with the aim of integrating more sustainable materials into mass production while maintaining consistent product quality through automated manufacturing processes.

MEIYUME

Country: Singapore
Booth: 3-C01 (Hall 3 - ASIAWORLD-EXPO)
www.meiyume.com

Product name:

1. Mono twist pebble
2. SPF50 lip balm
3. Gloss Recharge Milk

Product description:
1. A patent-pending beauty compact co-developed with Eastman, featuring a mono-material PET design and an innovative PET spring engineered for compatibility with recycling streams. Its sleek twist-to-open mechanism is designed for solid formulas filled directly into the base, while an integrated axle hole allows attachment to bangles and accessories for on-the-go portability.
2. A sustainable SPF50 lip balm designed to protect and nourish lips against sun exposure and environmental aggressors. Its formula combines barrier-strengthening ceramides, natural waxes and upcycled antioxidant-rich superfruit ingredients to retain moisture, soothe dry and chapped lips and restore the lip barrier. Featuring a peppermint flavour, it leaves lips soft and smooth with a natural finish.
3. A lightweight, leave-in Bond Recharge Hair Mist powered by biomimetic peptides and advanced cortex and cuticle-repairing technology. Designed to strengthen, smooth and protect hair, it helps seal split ends, reduce styling damage and provide heat protection up to 230°C/450°F. It also supports faster blow-drying, promoting healthier-looking, smoother and shinier hair.

Sustainability commitment:
Meiyume is committed to embedding sustainability across its operations, continuously improving its environmental performance, supply chain practices and product development. Its commitment is supported by independently verified standards and certifications, including ISO 14001, ISO 50001, FSC Chain of Custody, LEED, GOTS and RSPO, as well as an EcoVadis Gold rating. The company focuses on responsible sourcing, reducing environmental impact, promoting safer working conditions and supporting more sustainable manufacturing practices, with a focus on people and the planet.

SKILLFUL INTERNATIONAL PRINTING CO., LTD.

SKILLFUL PRINTING

Country: Hong Kong SAR
Booth: 5-G10 (Hall 5 - ASIAWORLD-EXPO)
https://deck.skillfulprinting.com/

Product name:

Cosmetics PR SET

Product description:

Skillful International Printing produces high-quality custom secondary packaging, including rigid boxes, folding cartons and PR sets tailored for beauty brands. With in-house manufacturing in China and Vietnam, FSC Chain of Custody, GRS, ISO 14001 and SMETA certifications, the company focuses on responsibly sourced materials, recycled-content options and precise finishing (foil, emboss, textures). Their PR sets are designed to deliver a premium unboxing experience while supporting sustainable material choices.

Sustainability commitment:

Skillful is committed to providing eco-friendly and sustainable printing solutions, offering a range of eco-friendly ink options to help reducing carbon emission. The company is dedicated to minimizing its environmental impact by prioritizing the use of green materials and implementing a production setup designed to control VOC emissions.

TOIN CORPORATION

Country: Japan
Booth: 5-B04 (Hall 5 - ASIAWORLD-EXPO)
https://www.toin.co.jp/en/

Product name:

1. Tamper-Proof Bottom-Insert Carton
2. Transparent Paper Pouch

Product description:

1. A New Packaging Solution to Solve Labor Shortages in Manufacturing. By pushing the prcxiuct in from the bottom, a lock engages to provide tamper-evldence, delivering a packaging style with excellent Set-up efficiency. Unlike conventional rectangular packages, the form enables Clear on-shelf differentiation.
2. A transparent paper pouch made from 100% paper, featuring a see-through window that allows products to be displayed while maintaining an attractive packaging design. The window is created through a special coating or glassine paper, with custom printing options also available.

Sustainability commitment

1. A more sustainable packaging approach, reducing auxiliary materials, eliminating additional sealing stickers and glue, and optimising resource use through a simplified packaging process.
2. A plastic-free packaging solution made entirely from paper, designed to simplify recycling. Its paper window can be recycled together with the pouch, eliminating the need for material separation. FSC-certified paper is also available, supporting responsible sourcing.

Incorporated and benchmarked with:

ecovadis

GUANGZHOU CUIDAI BIOTECHNOLOGY CO.,LTD

Country: China
Booth: 10-P12 (Hall 10 - ASIAWORLD-EXPO)
www.cuidaicos.com

Product name:

Multi-use Powdery Wooden Pencil

Product description:

This wax-free pure powder freeze-dried pencil adopts newly developed cold-pressed pure powder technology, delivering cloud-like fluffy texture and far more natural makeup finish than regular under-eye pencils. The subtle crushed-diamond shimmer creates plump, lifelike under eye definition, enlarging your eyes without looking puffy.

- Wax-free pure powder formula with cloud-like fluffy texture
- Multi-tasker: under-eye brightening, eyeshadow blending & highlight all-in-one
- Buildable without heaviness; easy correction, no muddy finish.

Sustainability commitment:

Guangzhou Cuidai Biotechnology Co., Ltd. promotes responsible cosmetic manufacturing through vegan, cruelty-free and eco-friendly formulations, with a focus on paraben-free and sulfate-free ingredients. Its commitment is supported by GMP, ISO 22716, BSCI and SEDEX (SMETA) certifications, alongside standardized cleanroom facilities and automated production processes.

AUSMETICS DAILY CHEMICALS (GUANGZHOU) CO., LTD.

AUSMETICS
SINCE 1998

Country: China
Booth: 8-F12 (Hall 3 - ASIAWORLD-EXPO)
www.aromatic.com.tw

Product name:

1. Tap-Free Hair Wash Sheet
2. Water-Activated Self-Emulsifying Serum Stick

Product description:

1. The greenest hair wash is the one you delete. One sheet replaces one shower wash, saving up to 21 litres of water. No running water or rinsing needed: it removes sebum, sweat and odour, leaving hair fresh, soft and non-sticky. With 80% sebum removal in tress testing and air-drying in about 15 minutes, it is ideal for travel, gyms and on-the-go care.
2. A water-free, silicone-free serum stick that transforms into a milky serum on contact with water. Its dual-anchor emulsifier system blends oils and actives directly on the skin, delivering a soft-matte finish when applied dry or a fresh milky feel within 10 seconds on damp skin. Stable at 40°C/75% RH, it features a paper tube and 95% natural-origin ingredients (ISO 16128), making it ideal for humid climates.

Sustainability commitment:

1. The innovation lies in the use phase, not the packaging. One no-rinse sheet replaces a conventional hair wash, eliminating the need for running water. Tested in 20 real homes, each wash saved 21 litres of water – measured, not modelled, and stated on pack. Made from 100% lyocell, the binder-free, plastic-free sheet complies with UK wipe bans and EU turtle-marking requirements.
2. Emulsification happens on the skin, not in the factory. This water-free, silicone-free stick combines oils, actives and a dual-anchor emulsifier system, self-emulsifying within 10 seconds on damp skin. Unlike cleansing balms, it stays on skin to deliver actives. With no water to produce, preserve or ship, one 5 g stick offers 25 applications and two skin feels.

YUYAO CURVE PACKAGING CO.,LTD

curve pack
珂 弗 包 装

Country: China
Booth: 7-R16 (Hall 7 - ASIAWORLD-EXPO)
www.curvepack.com

Product name:

1.Refillable Glass/ALU Airless Bottle
2.MONO PP Dropper

Product description:

Yuyao Curve Packaging offers refillable glass and aluminium airless bottles that combine an elegant outer shell with a replaceable inner cartridge, significantly reducing plastic waste while protecting active formulas through an airless system. The mono PP dropper provides a streamlined, mono-material dispensing option that supports easier recycling. These solutions emphasise reuse, precise dosing and premium aesthetics, aligning with circular beauty packaging trends. The company is ISO 9001 certified and specialises in complete cosmetic packaging solutions.

Sustainability commitment:

Curve Pack is committed with the development of products that are easily dissembled and recycled. Glass, PP, PET, and PCR components, as well as mono material packs, in which all parts are made from the same material, are being increasingly adopted.

JL INTERNATIONAL

Country: Republic of Korea
Booth: 8-D10 (Hall 8 - ASIAWORLD-EXPO)
https://jlintl.co.kr/

Product name:

1. Dlux Professional Korean Lash Lift Kit
2. Dlux Professional Art Lash & Brow Color
3. Clione Prime Lash & Brow Color
4. Dlux Professional La Chevelure Anti Hair Loss
5. Dluxkin Bubble Pack

Product description:

1. Dlux Professional Korean Lash Lift Kit: a professional lash lift kit featuring the world's first cysteamine-based solution, enriched with keratin and 17 amino acids. Its innovative no-glue balm technique delivers a precise Korean lash lift while caring for lashes.
2. Dluxkin Bubble Pack: a range of moisturizing bubble face packs enriched with targeted ingredients such as hyaluronic acid, cica, heartleaf, PDRN and collagen. Their dense foam helps maintain hydration, comfort and a fresh, smooth-looking complexion.
3. Dlux Professional Art Lash & Brow Color: a professional semi-permanent color designed for precise lash and brow coloring in salons. Vivid color lasts up to two weeks before fading naturally, while vitamin C helps condition the hair during treatment.
4. Clione Prime Lash & Brow Color: a semi-permanent lash and brow color available in four shades, delivering vivid results for up to two weeks. Its vitamin C formula helps condition lashes and brows.
5. Dlux Professional La Chevelure Anti Hair Loss: a complete haircare routine designed to reduce shedding, strengthen hair and improve thickness and fullness. Its formulas help soothe the scalp, control excess oil and restore softness and shine.

Sustainability commitment:

JL International (DLUX Professional) is committed to responsible beauty practices, including cruelty-free standards verified by PETA, ensuring neither ingredients nor finished products are tested on animals. Through its professional lash and brow systems (including Korean lash lift kits and colour products), the company focuses on high-performance, salon-grade formulations designed for efficacy and user safety. Ongoing efforts emphasise ethical production and continuous improvement in product stewardship within the professional beauty sector.

JIANGMEN HUAJIE COMMODITY CO., LTD

Jiangmen Huajie Commodity Co.,Ltd

Country: China
Booth: 10-S28 (Hall 10 - ASIAWORLD-EXPO)
www.jm-qianse.com

Product name:

Bath Ball

Product description:

Jiangmen Huajie manufactures bath balls and mesh poufs for body care, offering options including natural fibre (sisal/loofah) and PE mesh designs. Selected products feature GRS-certified recycled materials and natural fibres to support lower-impact bathing rituals. Certified to ISO 9001 with social audits such as BSCI and SEDEX, the company provides customisable, durable exfoliating tools that promote everyday personal care with attention to material choices and quality manufacturing.

Sustainability commitment:

Jiangmen Huajie Commodity Co., Ltd. supports responsible business practices through quality management and continuous product innovation. Its commitment is backed by internationally recognized certifications and audits, including ISO 9001, WCA, GSV, SEDEX and BSCI, alongside a focus on quality control and customer satisfaction.

RIVTA CULTURE EQUIPMENT (SHENZHEN) CO., LTD.

ECORIVTA

Country: China
Booth: 10-N23 (Hall 10 - ASIAWORLD-EXPO)
www.ecorivta.com

Product name:

CBR246 – Recycled Corduroy Cosmetic Bag

Product description:

Beyond the retro aesthetic lies a robust, high-performance material. Ecorivta's corduroy series offers a distinctive tactile experience that modern lifestyle brands crave. Our corduroy is engineered to balance softness with structural integrity, making it the premier choice for vintage-inspired collections and premium lifestyle GWP. Available colours: brickwork, wine red, green, blue.

Sustainability commitment:

RPET corduroy outer fabric and 190T RPET lining incorporate recycled polyester into a cosmetic pouch designed for continued use beyond a beauty gifting campaign. Specifications and product photograph sourced from the official Rivta Factory CBR246 product page. Photograph shows the brickwork colour option; green is also available.

LUMINUS GROUP

Country: China
Booth: 10-R23 (Hall 10 - ASIAWORLD-EXPO)
www.luminusbeautiful.com

Product name:

1. Cosmetic Bag
2. Eye Mask

Product description:

1. A collection of travel makeup bags for women and girls, available in different styles, patterns, textures and sizes for daily use and holidays.
2. Satin silk eye masks designed to enhance the sleep experience, featuring a soft finish and an elastic strap for a comfortable fit.

Sustainability commitment:

Luminus Group promotes responsible manufacturing practices, supported by ISO, SMETA and BSCI audits. Its commitment to quality and reliability is further demonstrated by compliance with international supplier standards.

FOSHAN QISHENG PLASTIC PACKAGING CO., LTD.

Country: China
Booth: 5-A25 (Hall 5 - ASIAWORLD-EXPO)
https://www.ksun-packaging.com/

Product name:

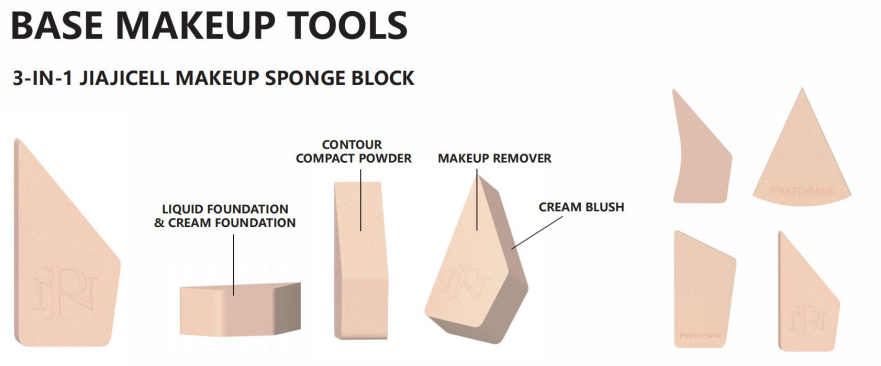

1. 300ml 750ml PE Shampoo Pump Bottle
2. 15ml Airless Cosmetic Syringe with Massage Head

Product description:

1. The KSUN Lotion Pump Bottle is available in 300ml and 700ml sizes and is made of PE. The product supports customization in terms of shape, style and colour, offering different design options to meet specific requirements. The company has more than 5,000 sets of production moulds to support customized designs.
2. The KSUN Airless Cosmetic Syringe has a 15ml capacity and is made of PETG. The product supports customization of shape, colour and logo, with a variety of styles available. The company has more than 6,000 sets of production moulds to support customized designs. Quality inspections are carried out according to the AQL 2.5 standard.

Sustainability commitment:

KSUN is committed to responsible material selection, using new materials and avoiding harmful substances in its production. Its approach also embraces the development of more sustainable packaging solutions, including PCR recycled plastics, ocean-bound recycled plastics, PLA biodegradable materials and plant-based compostable alternatives. Through material innovation and eco-conscious packaging options, KSUN aims to contribute to reducing the environmental impact of plastic packaging.

GUANGZHOU PRETTY 9 CO., LTD

Country: China
Booth: 10-L22 (Hall 10 - ASIAWORLD-EXPO)
https://prettynine.1688.com/

Product name:

Jiajicell Makeup Sponge Block

Product description:

A versatile 3-in-1 makeup sponge made from JIAJICELL-20T material, designed for liquid and cream foundation, contour and compact powder, makeup remover, and cream blush. Featuring a nude colour and laser-engraved logo, its compact dimensions (33.1 × 66.2 × 20 mm) make it practical and easy to carry.

Sustainability commitment:

Guangzhou Pretty9 integrates sustainability through eco-friendly foaming technology and responsible production processes, supported by ISO 14001 certification. Automated production lines and strict quality controls help ensure efficient manufacturing, product consistency and safety. Its commitment is further supported by GMPC, ISO 9001, SMETA and BSCI certifications.

ecovadis

SHENZHEN WINKEY TECHNOLOGY CO., LTD

WINKEY
more active

Country: China
Booth: 10-R02 (Hall 10 - ASIAWORLD-EXPO)
https://www.winkey-china.com/

Product name:

1. 次抛+冻干 BFS+Freeze-dried
2. 颅顶抗衰防脱 Scalp Anti-Aging & Anti-Hair Loss

Product description:

1. Designed to elevate the skincare ritual, the Ampoule Serum combines portability, convenience and precise dosage control in individually packaged, single-use formats. The range includes BFS ampoules featuring Mayda Blow-Fill-Seal integrated technology and aseptic filling, alongside dual-chamber formats that separate powder and liquid until use. Available in freeze-dried powder and spherical bead formats, these solutions undergo -45°C cryogenic lyophilization and are vacuum-sealed to preserve freshness.
2. A targeted scalp care range designed to nourish hair follicles, strengthen roots and address hair thinning concerns. The collection includes a nourishing serum, a targeted scalp spray and a freeze-dried powder treatment, offering different application formats to support scalp health and hair density. The solutions aim to reduce hair shedding, fortify hair roots and improve the appearance of hair within four weeks, with individually sealed packaging and portable formats for convenient use.

Sustainability commitment:

Winkey embraces Circular Beauty through responsible sourcing, efficient resource use and eco-friendly production. Its initiatives include upcycling production byproducts, recycling solvents through closed-loop systems and adopting renewable energy to reduce its carbon footprint. The company also prioritizes recyclable packaging, plant-based ingredients, cruelty-free practices and green chemistry, supported by ISO 14001 certification.
