AFFECT Cosmetics is a professional make-up brand that was created to support women's desire for having the best quality make-up products by filling the gap between the luxurious colour cosmetics and mass-market products.

AFFECT is a fusion of contrasts: high quality cosmetics with affordable price, experience of respected makeup masters with boldness and enthusiasm of passionates, intense and extravagant make-ups with natural beauty.

AFFECT's offer is complete from the very beginning - using our products, you can create every, even the most demanding make-up - from nude, through wedding, up to high fashion. The quality, deep pigmentation and skin care aspects of our products make AFFECT able to compete with the best professional make-up brands. What is more, our products are designed and refined in every detail, so they would affect other senses - by pleasant fragrance, eye-catching design of the packaging and unique knitted pattern on the pressed blushes and powders.

BIOXUS LAB is a Polish-Japanese company that produces handcrafted creams for various skin problems. The flagship product of BIOXUS LAB is a multi-purpose cream made on the basis of a family formula which was created almost 30 years ago in Japan and has been used by the family members and their friends ever since. Its essential ingredients are pine extract and beeswax which accelerate the improvement of skin condition. Pine extract has great properties in the treatment of skin diseases, while beeswax is known for speeding up the wound healing process. Since they are 100% natural ingredients, they are better absorbed by the skin, and thus, completely safe. The product is dedicated to both young and elderly people. It is particularly helpful for people who are physically active or travel a lot, hence they are more vulnerable to the skin problems resulting from warm and humid climates.

Introducing D'ALCHEMY's new premium brand: a European anti-aging skincare of exceptionally high quality, aimed at conscious consumers who care about their health and physical condition.

D'ALCHEMY care products contain the most remarkable natural and organic active ingredients, which work in perfect harmony with the skin. All products are free from harmful synthetics. Their vitality and effectiveness is based on advanced natural formulas, pure essential oils and selected extracts from organically grown plants. Packaging is made of unique bio photonic glass, which provides high bio-vitality and microbiological stability.

"Natural Beauty" by D'ALCHEMY means a brilliant complexion reflecting two holistic factors: skin health and a balanced approach to life.

The alchemists' philosophy is our inspiration. It contains all wisdom within itself. In its essence, it conveys the eternal human passion for excellence common to all cultures, the desire for inner peace and spiritual wisdom.

ILI OLA is a Polish brand of cosmetics of exceptional quality. The cosmetics we offer are characterized by a multidirectional action to support the nightly biological renewal of the skin. The effects are visible the next morning after the evening application. The secret of their effect is the production process, thanks to which we have kept all the necessary unsaturated fatty acids. The cream softens the skin and makes it silky smooth, stopping the transepidermal water loss at the same time. Ideally suited to a very dry skin, for people suffering from hashimoto, atopic dermatitis, and women during menopause and oncological patients, whose skin is extremely damaged. Surprising results of the apparatus tests that we obtained after monthly usage are: on the body – skin firming by 75%, hydration by 33%, smoothing unevenness by 11%, and, on the face – reducing wrinkles by 10%. Despite the hard butters used in the recipe, the texture of the cream is light and fluffy, and the unique fragrance brings you to the luxurious world of the Orient, calming your body and mind. We are ecological, vegan, Halal certified.

KOBO PROFESSIONAL

KOBO Professional was created from passion for make-up. It opens the door to an extraordinary, colourful world of professional cosmetics. Main advantages: • excellent formula with high quality ingredients, • a very good selection of pigments • high application qualities

Main category: • advanced products: mineral cosmetics, primers, make-up bases, powders, eyeshadow and powder sets.

SENSIQUE Perfect cosmetics for sensitive skin

We do not always have time for proper skin care, which is extremely important in particular in the case of sensitive skin - and this skin type occurs in more than half of our population. The solution is a new line of SENSITIVE SKIN cosmetics from SENSIQUE. Sensitive skin is characterized by its tendency to discolourations. It is also prone to redness and clearly reacts to extreme temperatures and other weather conditions, such as wind, sunlight and air pollution. In such cases it is very important to take proper care of the skin and use cosmetic products with a relatively simple composition, based on irritation-soothing substances, with skin moisturizing and regenerating properties. These include, among others: lanolin and its derivatives, vitamins E, C, F, D-panthenol, silk proteins, allantoin, aloe extract, castor oil and beeswax. All these and many more ingredients can be found in the new SENSIQUE SENSITIVE SKIN line of cosmetics.

We provide our customers with top quality natural skin and hair care products with real skin and hair care benefits, at reasonable price, so that everyone can afford them. Our products are distinguished among other natural cosmetics by their beautiful pastel colours and seductive fragrances. We give them a little twist of colour to make them pleasing to the eye and aroma to make them smell amazing, so that your daily skin and hair care treatments were delightful in every possible way.
Nacomi label designs, product names and delicious fragrances also correspond to the latest trend in which skin and hair care products are associated with food. Our products contain no parabens, SLS/SLES or mineral oils and are safe and mild, so they are ideal for those with sensitive skin and those who suffer from allergies or other skin problems. A great number of our products are suitable for vegetarians and vegans too.

NOU Poland is a Polish fragrance producer, a family business started in 2016. However, its origin and professional background go back years before, when the first steps were made in cosmetic distribution sector. The cosmetic market in Poland started to develop rapidly in the '90s and the company owners took their share in its development. The idea behind the brand has been the production of good quality products at a customer-friendly price, given to the customers in packaging design with regard to the latest global trends. Based on our knowledge of the market and interest in trends and novelties we have been able to create a brand that meets the needs of customers to get good value for good price. We have been operating in Poland, gaining experience, working on production methods and developing design. Our effort has been rewarded in November 2018 when our NOU Peony fragrance received the exquisite title of 'Doskonałość Roku 2018' given annually by 'Twój Styl' magazine, one of the most prestigious style, cosmetic and lifestyle titles issued in Poland. Today, we produce 13 different fragrances for women and for men, divided in 3 ranges - NOU Flowers, NOU Summer Edition and NOU for Man.

The PIBU Beauty brand was established in Seoul, in the laboratories of one of the largest manufacturers of Korean face sheet masks. The philosophy guiding our brand is the embodiment of the Korean approach to care – ‘Skin first, make-up second’. Healthy, moisturized and radiant skin is the most important. It is the skin that should be the center of attention! Makeup is only our choice but not a necessity. We focus on skin care so much that it reflects in the name of the brand itself; PIBU means ‘skin’ in Korean. PIBU Beauty is:

- Innovative Korean premium sheet masks that are rich in the highest quality active ingredients
- Comfortable, fast and effective daily care
- Comparable with the effectiveness of your SPA treatment to supplement your care
- ‘PETA Cruelty Free’ certified products

Daylong makeup residue has met its match! Polish Cosmetics Company - GLOV is an award-winning product that has transformed makeup removal around the world. Founded in 2011, GLOV was created as the antithesis to the traditional makeup remover. With patented micro-fiber technology, it gently removes makeup with just water making for a quick and relaxing routine that leaves skin glowing and clean. Eliminating toxins from the process entirely, the GLOV micro-fiber technology removes makeup like a magnet when wet. The unique micro-fibers are one hundred times thinner than a human hair, and shaped like a star to grab and remove makeup without damaging skin. Hypoallergenic, and dermatologically tested, the GLOV micro-fibers are safe and gentle on all skin types. As the ultimate multitasker, GLOV exfoliates, cleanses, and tones skin while removing makeup and is reusable for up to three months, eliminating waste and virtually every product from any night time routine. GLOV is currently available in more than 60 countries worldwide, at beauty chains such as: Sephora, Douglas, Marionnaud, Monoprix, Debenhams, Nahdi, Rossmann. Well known as a fiber-expert GLOV has expanded portfolio to body care products, masks removers, anti-cellulite and beauty accessories.
