In their ongoing quest to valiantly face up to profusion of challenges created by the current global health emergency, the organizers of Cosmoprof Worldwide Bologna have felt the need to once more reschedule their forthcoming event until 9th – 13th September 2021.

There are many idiomatic expressions to denote how we're all having to behave at the moment, but 'to go with the flow' and 'to bend with the wind' are probably the two which best describe how the organizers of many of our best and finest hair and beauty events have had to behave over the past 12 months. To say that the situation is 'unpredictable' is nothing less than a grave understatement. For the organizers of Cosmoprof Worldwide Bologna, the priority has, throughout everything, been to ensure the safety and well-being of exhibitors and visitors alike – for this reason alone, they are to be applauded for their decision to yet again postpone the 53rd edition of the event until Autumn 2021.
